~Learn together, heal together

PROBLEM

01 People with disorders have trouble with **EQ**

02 People with mental illnesses are **stigmatized**

03 Counsellors and therapists are **inaccessible** due to **lack of affordability**

MISSION

Helping people with developmental disorders live a stress free and healthy life

VISION

A world free of stigma, where everyone has access to affordable and prime therapists and counsellors

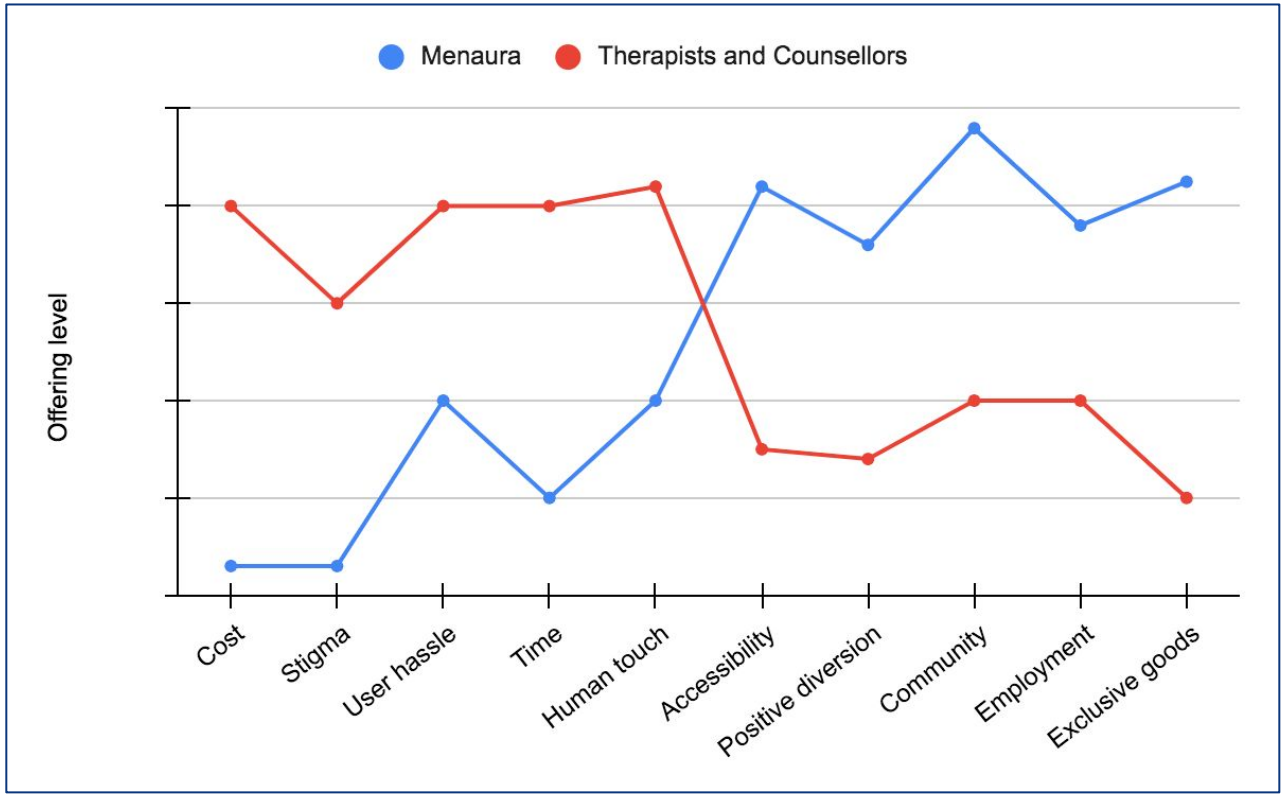

EXISTING APPS

Limited facilities, apps focus on only one disorder, one mental illness and one part of EQ

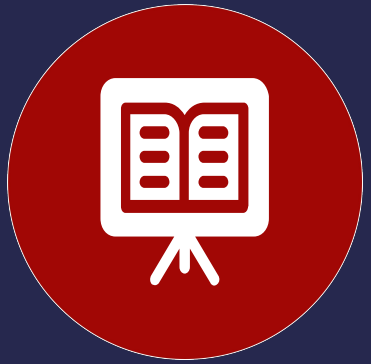

Not user-friendly, difficult to navigate

Ineffective and not engaging enough

STRATEGY CANVAS

OUR SOLUTION

Teaching via specialised disorder mediums like art, music, games, cartoons

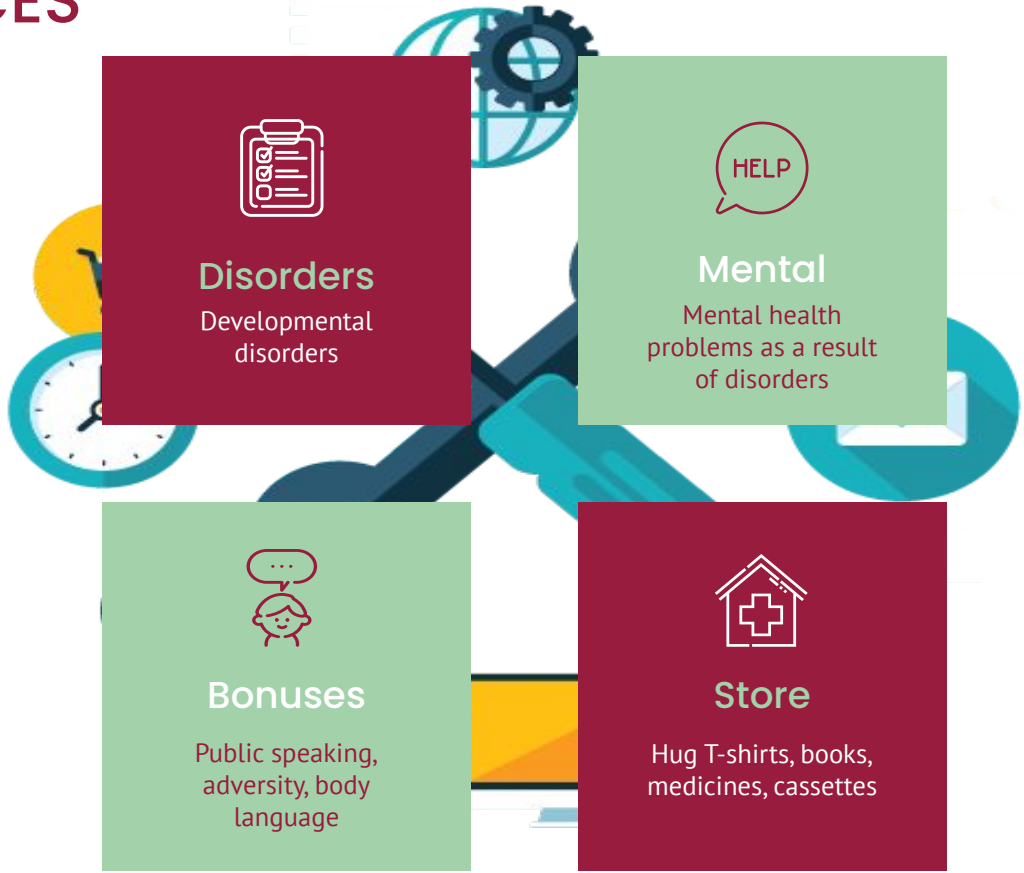

Exercises like PMR, deep breathing, CBT

Monthly counsellor sessions, tracking progress

SERVICES

Disorders
Developmental disorders
HELP
Mental
Mental health problems as a result of disorders
Bonuses
Public speaking, adversity, body language
Store
Hug T-shirts, books, medicines, cassettes

OUR STORE

HUG ACCESSORIES

Customisable clothing made to give and receive **virtual hugs** by changing the **temperature of the accessory, lighting up** or **vibrating** whenever the other person wants to give a hug.

THEORY MATERIAL

Special Worksheets for dyslexics and CBT, books for awareness, pamphlets, motivational posters and magazines, journals, customized guided imagery.

AUDITORY MATERIAL

Cassettes, white-noise machines, frequency tapes for insomniacs, customised photos and videos

MAINTAINING QUALITY

FEEDBACK

Through feedback sessions, MAUs, DAUs, app churn, ARPUs, average time/user

FILTER COMMENTS

Censoring comments which contain negative words and ones that might hurt the users sentiment

PROGRESS UPDATES

Customizable progress reports to track the goals achieved and the goals yet to be achieved by the user.

RECOMMENDATION

Analysing the collected data from the user and recommending courses based on history

MULTI-LINGUAL

The app can function in multiple languages, the user can operate the app in their preferred language

CHATBOTS

24*7 Chatbots as an alternative to manual service centers. The chatbot can also be used to hold interactive conversations.

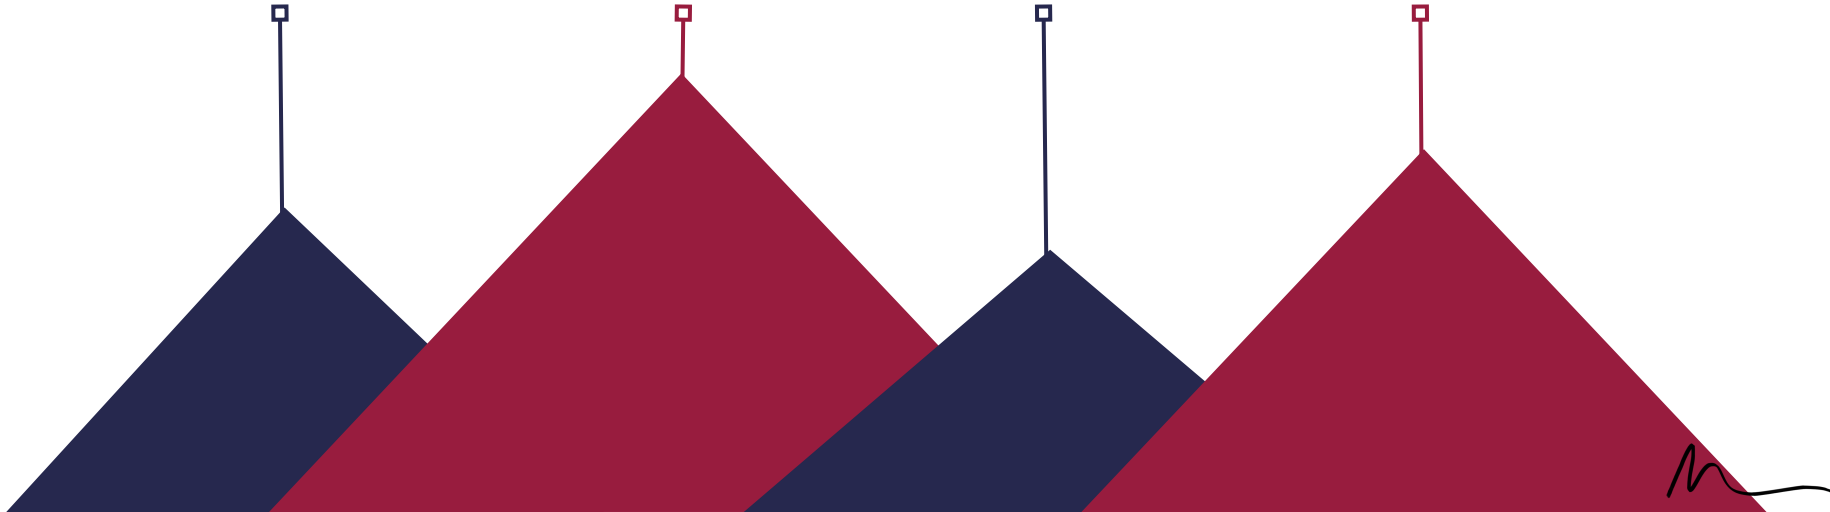

TARGET AUDIENCE

People with developmental disorders

People facing Mental Health Issues

General population for personality development

Age groups: 3-13, 13-21, 21-30

MARKETING PLAN

Creating user base via social media: launch dates, blogs, subscription lists, press releases

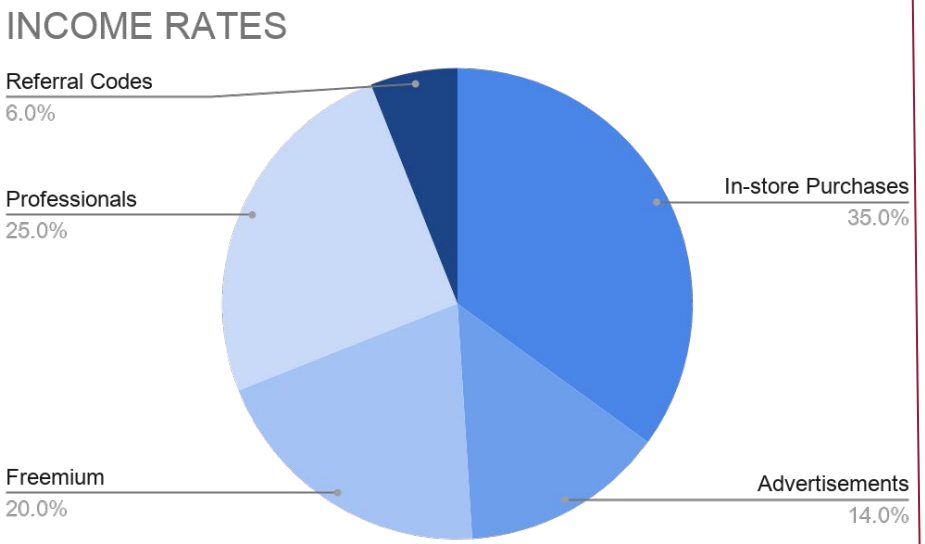

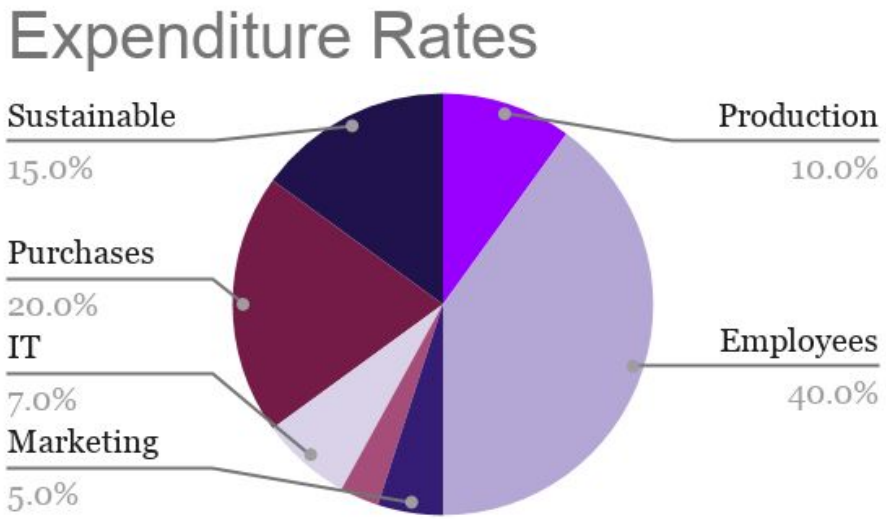

Visiting NGOs, counsellors and therapists, hospitals

SEOs, tags, landing pages, social sharing

INCOME AND EXPENDITURE RATES

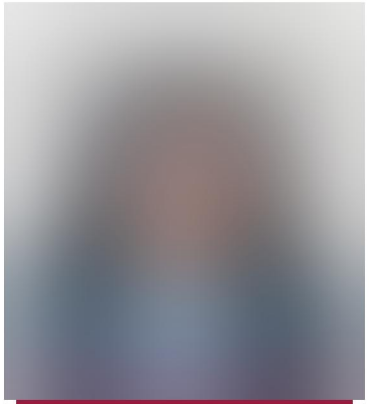

*All the above calculations have been made after analysing the income and expenditure rates of other prominent applications such as Amazon Shopping, Spotify, Play store, Appstore

MEET THE TEAM

ABHAYA TRIVEDI

APURVA THAKUR

HARSHITA BOSE

We would like to thank our school, The Aerospace Society and our adult advisor, for their constant guidance and support. We also owe a huge vote of thanks to the Diamond Challenge Team for providing us a platform and acting as a propeller to start the company.
